PROFILE

As an adaptable software developer, I thrive on solving complex problems and creating efficient solutions. My expertise lies in c, Python, and database management. With a strong foundation in software engineering principles, I've contributed to successful projects that improve user experiences. I'm passionate about continuous learning and collaborating with cross-functional teams. Let's build innovative software together!

EDUCATION

B.E.Computer Science Engineering

DHAANISH AHMED COLLEGE OF ENGINEERING

10/2021 – 06/2025

CHENNAI, INDIA

SKILLS

Python | HTML5 & CSS3 | Excel | Tableau | SQL

PROJECTS

Web development (Front end)

I designed and developed a stunning fashion eCommerce website for my dress shop using HTML, CSS, and JavaScript. Leveraging my front-end skills, I created a user-friendly interface that showcases our latest trends and allows customers to explore and shop effortlessly. The website features a responsive layout, a navigation menu, a hero header, product filtering, and other essential components. By implementing clean code and adhering to best practices, I ensured an engaging and seamless shopping experience for fashion enthusiasts.

INTERNSHIP

EGITIM VENTURES

I completed an internship at Egitim Ventures, where I worked as a software developer. During my time there, I gained hands-on experience in various technologies, including c, Python, and SQL. I collaborated with the development team to create web applications, troubleshoot issues, and optimize code. Additionally, I had the opportunity to work on projects related to web security, data analytics, and cloud computing. Overall, my internship at Egitim Ventures provided me with valuable insights into software development practices and enhanced my technical skills
